

All eyes on Eynesbury

Moving full speed ahead, the Eynesbury Township has been welcoming new families almost every week since its first family moved in early this year, and is fast on its way to being called home by more than 100 residents.

Looking forward to joining their neighbours are local Melton residents, Jason and Denise Cran and their two sons, who first set their hearts on living at Eynesbury four years ago, purchasing their prized golf fronting allotment last year to make their dream a reality.

Jason Cran says his family is very excited about moving into their new home and becoming some of the first Eynesbury residents.

"Our family is looking forward to living among Eynesbury's beautiful surroundings and enjoying all the benefits this fantastic new community has to offer; there is such a wonderful ambience and peacefulness here. Simply driving down Eynesbury Road, seeing kangaroos and birds as you go through the Grey Box Forest is a special experience," Mr Cran said.

The township has been developed around a heritage-listed bluestone homestead, a unique aspect that

has been an incentive for many Eynesbury purchasers, including the Cran family.

"No matter how many times we have visited Eynesbury, the beauty of the bluestone homestead and the surrounding grounds still astounds us."

"The historical, natural and rural feel of Eynesbury has been maintained, the developers have done a great job, especially with the design," Mr Cran said.

Families will benefit from the laid back and peaceful lifestyle at Eynesbury and enjoy the use of the Graham Marsh designed golf course and walking tracks on their doorstep.

"We are really looking forward to raising our children in these surroundings, I believe that Eynesbury will be a great place for them to grow up," he said.

The township includes features such as Telstra Velocity™ fibre optic cabling to ensure high speed broadband and cable television, also Class A recycled water that will allow the brilliantly manicured surroundings to be maintained.

"There were so many features that attracted us to Eynesbury, recycled water was definitely one of them because it enables the parks and

gardens to stay green and healthy."

"We already love Eynesbury, so having an impeccably manicured golf course is just an added bonus!" Mr Cran said.

Joint developer, GEO Property Group, general manager southern region, Nick Deed, was delighted to hear such positive feedback from a future Eynesbury resident.

"We are very happy to hear how excited Mr Cran and his family are about moving in to Eynesbury. It is great to know that all the hard work and effort, we as developers put in to maintaining the grounds and the overall look and feel of the place is recognised. Construction is really moving along and we are extremely pleased to be seeing more residents move in each month. Eynesbury is a fantastic project and it is wonderful to see the community growing," Mr Deed said.
